HOD, IT

ACKNOWLEDGEMENT

We thank the department of INFORMATION TECHNOLOGY, for introducing the subject “Mini Project-2” in BE fifth semester.

We would also like to show our appreciation to our Honorable principal, Dr S V Ramana sir, our HOD K. Ram Mohan Rao for supporting us and our mini project lecturer, Mrs Sireesha mam, for letting us properly understand the process of doing a project and for providing valuable insight and expertise that has greatly assisted us in the making of the project.

ABSTRACT

Do you know different cultural sites ,UNESCO sites, heritage sites and dance forms of south India?

Our Idea is to show case the cultural sites , UNESCO sites , heritage sites and dance forms of south India on a web application.

It will show case and plot the cultural sites , UNESCO sites , heritage sites and dance forms according to the south Indian states.

The goal of our project is to show culture and heritage sites of south India and also it will be user friendly application.

CHAPTER 1

INTRODUCTION

- Our problem statement is to show case rich culture and heritage of south India
- Culture is the way of life how the people live it includes various festivals and dance forms celebrated all over the south India. South India has diverse people in it speaking different languages in different locations.
- In heritage we get to see various astonishing structures built in past era and also some of the sites were awarded with UNESCO heritage sites.
- Human beings live with different flora and fauna on this incredible earth. We tend to show case the national parks in south India.

1.1 PURPOSE

- These kind of websites can be used as references to get information about culture and heritage sites of south India
- These websites can also act as rich information spaces to explore about culture and heritage in south India
- To locate places google maps are used to get birds eye view of the location

1.2 INTENDED AUDIENCE

- The intended audience for this website people who seek knowledge about different cultures, languages, heritage of south India
- The people who want to travel to these culture and heritage places ,they get idea about them

1.3PRODUCT SCOPE

- These websites can be made user friendly as people will get information about particular culture, heritage and unesco sites in south India.

1.5 PROBLEM DEFINATION

- Our problem statement is Smart India hackathon Student innovation problem statement given by ministry of culture to show case rich culture and heritage of India, we limited the problem statement to south India and we designed the website, to show case the rich culture and heritage of south india.

CHAPTER 2

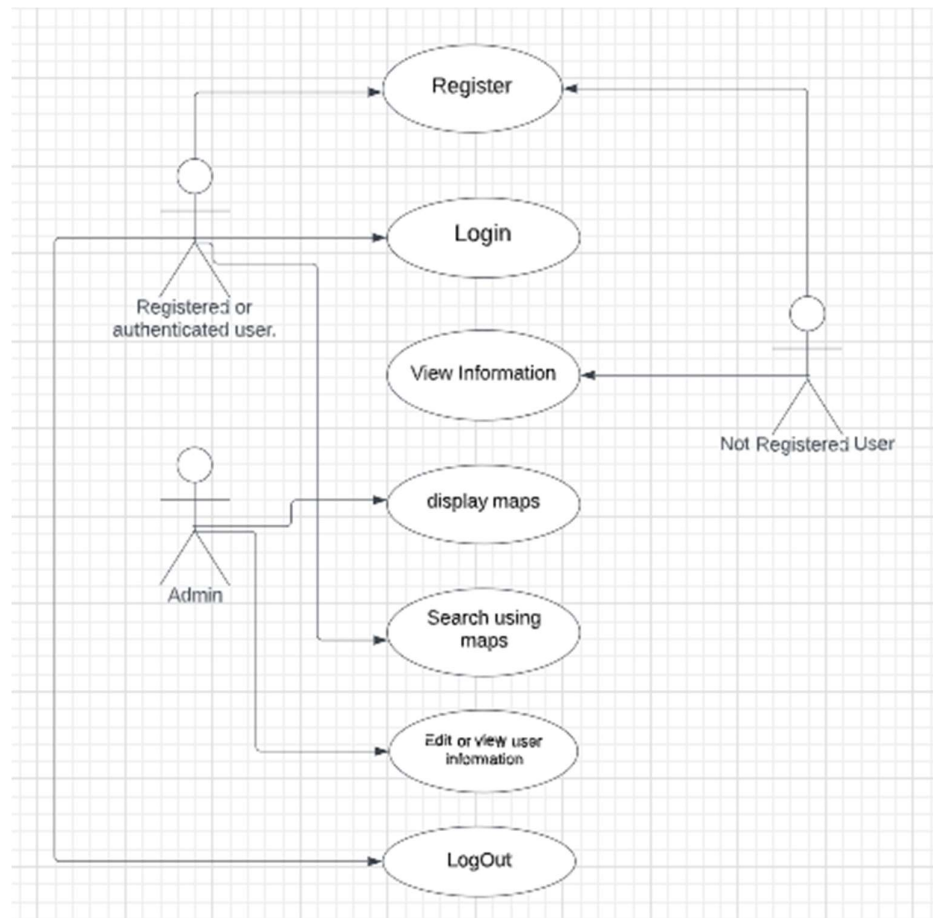

RELATED WORK

There are websites which actually show case the heritage and culture of India but our website will show case the festivals, dance forms, languages, Heritage sites and unesco sites of south india

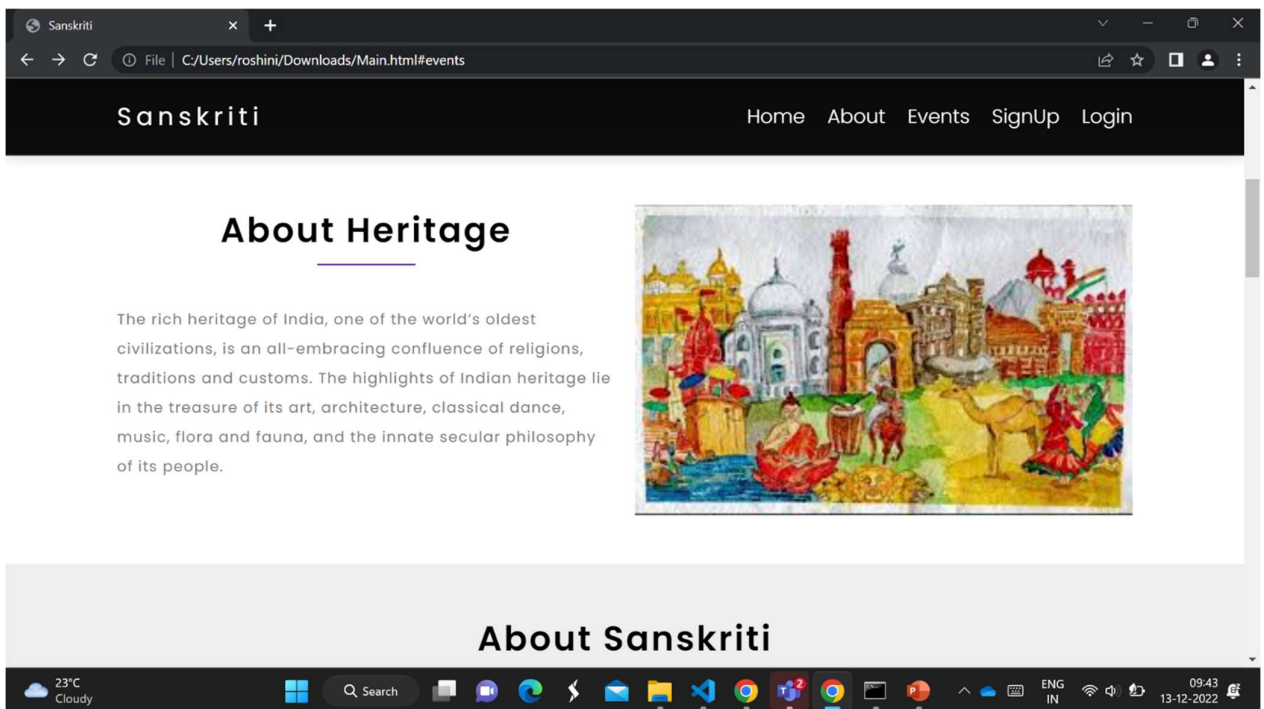

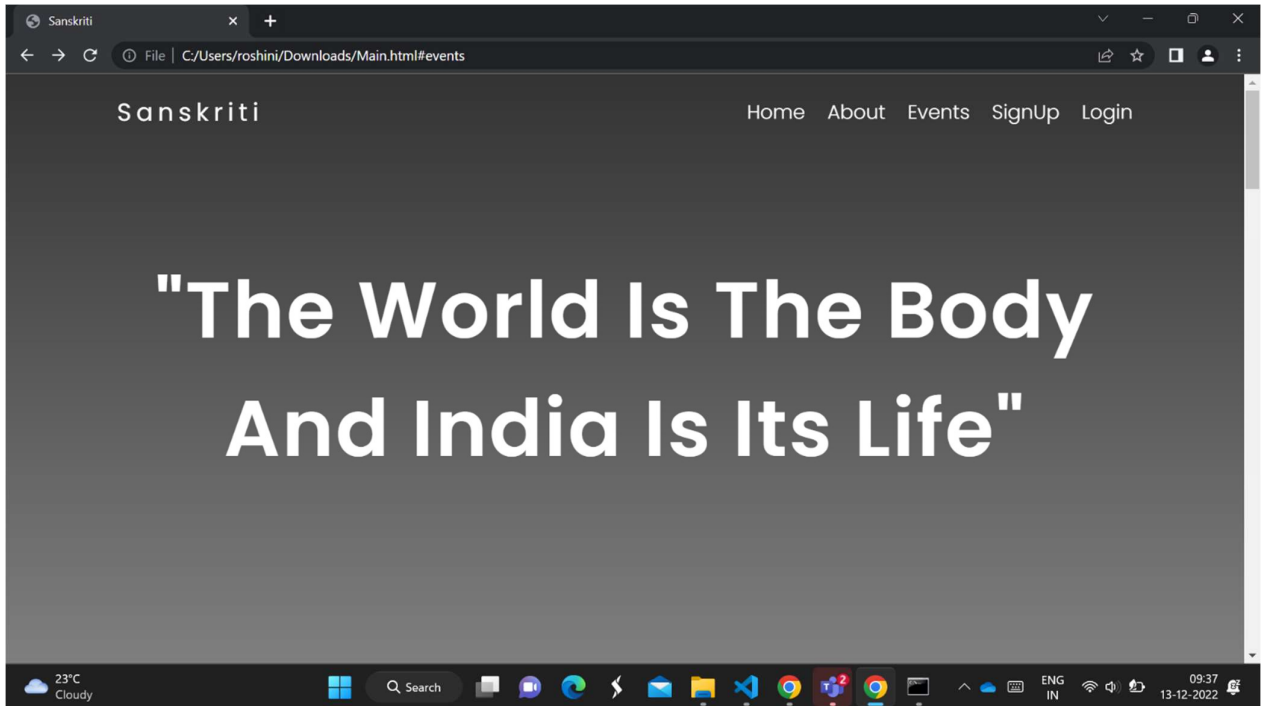

CHAPTER 3

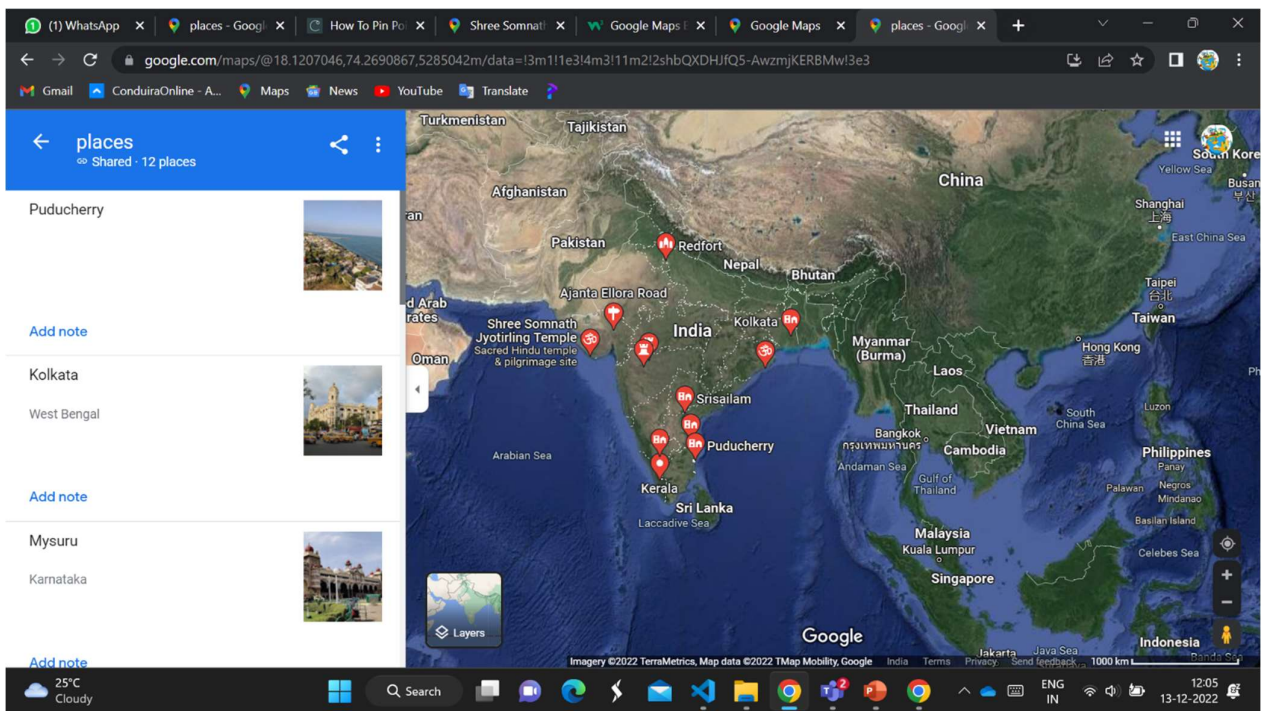

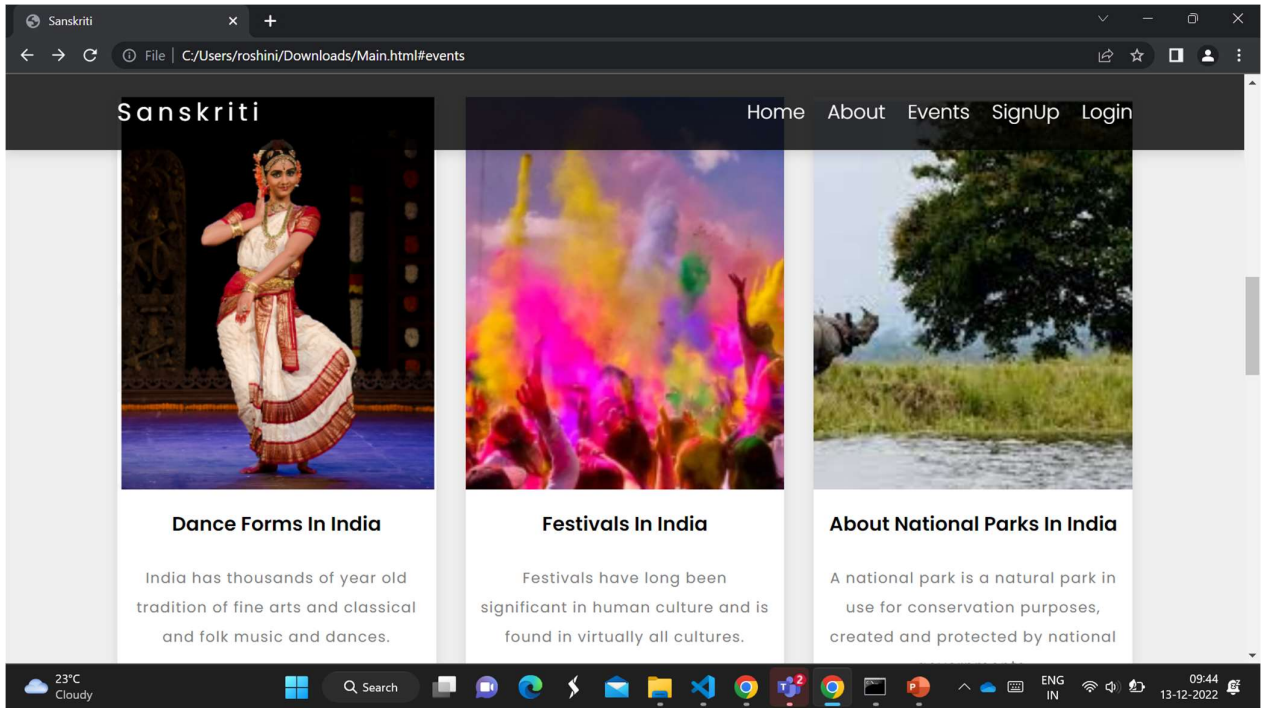

PROPOSED WORK –

3.1 Use cases –

3.2 UI prototypes or screenshots

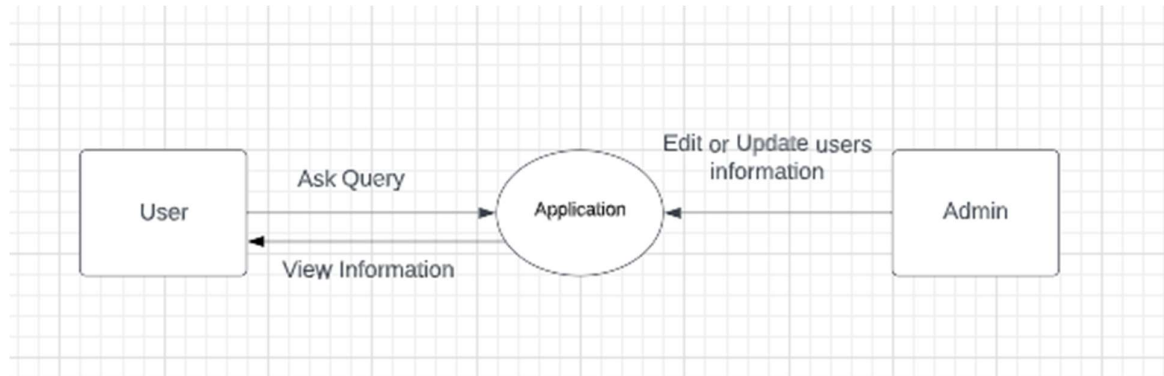

Architecture and Technology used

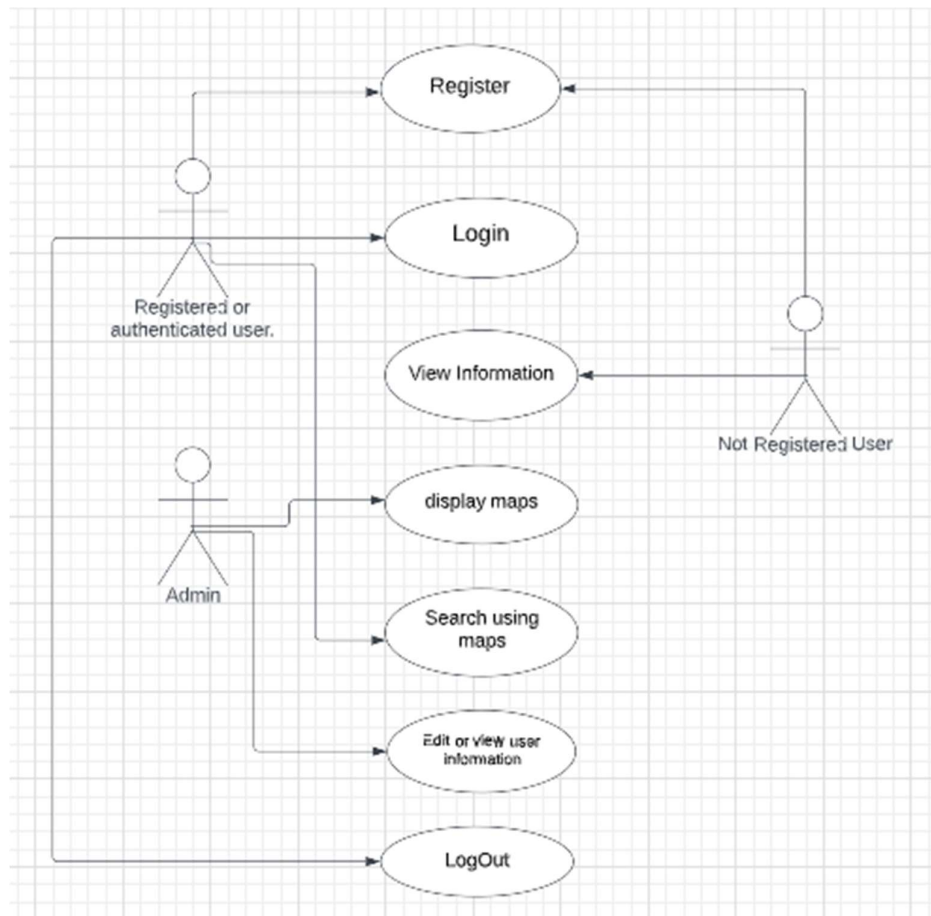

- HTML, CSS and JAVA SCRIPT to develop the front end of the website
- Google maps to show the location on website
- Backend was developed using xamp and pwp

3.3 Design –

CHAPTER 5

DISCUSSION AND FUTURE WORK

- In future we can include chat bots to these websites and can make websites user friendly
- We can add search engines to make websites user friendly and speech to text translation can be done

CHAPTER 6
